

# My Planet My Future

Space for the Sustainable Development Goals

The first edition of **My Planet My Future** Exhibition was held at UNHq from 10th July to 5th September 2018 to coincide with UN HLPF 2018.

The purpose of this exhibit was to create awareness about the significance of Space Science & Technology to serve the UN 2030 Agendas. Thus the exhibit showcased real case studies from around the world contributed by leading Space Agencies and organisations focused on Sustainable development Goals 6, 7, 11, 12 15 and 17. The exhibit was viewed by over 200000 visitors consists of diplomats and ministers representing 190+ countries, business leaders, NGOs, funding agencies that are part of the Global Compact and space enthusiasts.

## ANNOUNCING

# mpmf2030

MY PLANET. MY FUTURE

### The evolving exhibit on Space for SDGs

The success of MPMF exhibition has paved the way for “**MPMF 2030**” which will be a travelling exhibit covering strategic locations and occasions worldwide right upto the year 2030. It is conceptualised and developed to address UN 2030 Agendas. MPMF 2030 the revolving exhibit will be rolled out during the COPUOS session at Vienna in June 2019.

The exhibit will continue to evolve depicting newer case studies, showcase new models, displays and AV highlighting how leading space agencies and organisations across the world are applying space science and technology for meeting the 17 SDGs.

We invite leading Space Agencies, Industries and NGOs to benefit from this unique opportunity by participating in this endeavour.
